

Packaging for OEM Production

Easy Out Cartons

Packaging that works for you!

Cartons that Speed Production

For Regulating and Limiting Thermostats

Mechanical thermostat shipped with cardboard dividers do not withstand normal shipping. The coiled capillaries often seat together creating a tangled mess when removed from the master carton.

PECO packaging provide a safe, clean and organized container that saves time on OEM production lines.

- Packet 54 to a box
- Secured individual thermostats
- Easy Out for fast use
